NEWS! NEWS!

The "British Colonist" is the only Newspaper published at Victoria that receives the Latest Telegraphic Dispatches, as a comparison will prove. Late Telegrams appearing in any other paper are copied without credit 24 hours after they have appeared in the British Colonist. The circulation of the British Colonist being double that of any other Paper Published in British Columbia, it offers the best medium to Advertisers.

Cariboo News.

The *Sentinel* of the 8th is before us, but it is chiefly occupied with an account of the celebrations of the 1st and 4th. The former of these celebrations—that of Dominion Day—appears to have been characterized by an amount of enthusiasm and elaborateness not found in any other part of the Colony. Indeed, it is questionable whether, throughout the whole Dominion, the day was celebrated with equal éclat. It is characteristic of the good people of Cariboo that they do nothing by halves. Whatever they undertake to do, they do it with all their might. The day dawned beautifully, charmingly up among the mountains. A spacious platform had been erected, tastefully decorated with evergreens and beautifully arranged banners bearing gilt maple leaves. At 10 o'clock the explosion of a torpedo was the concerted signal for the commencement of the day's programme, when J. H. Todd Esq. made a few appropriate remarks and proposed three cheers for the Queen—a proposition which was responded to with a hearty good will by the congregated hundreds. Then followed the National Anthem, by the Band, when J. Spencer Thompson Esq. delivered a most able and eloquent address, at the close of which he proposed three cheers for the Dominion of Canada. The sports commenced at 11 o'clock, and were continued without intermission until 7 o'clock. A royal salute was fired at noon, and many choice pieces of music performed in excellent style by the Band throughout the day contributed in no small degree to the enjoyment and success of the occasion. A performance at the Theatre, by the Amateurs, and a general illumination concluded the proceedings of one of the most successful and agreeable celebrations in the history of the colony. The principal buildings in Barkerville were decorated, some of them with rare taste and great elaborateness, and the town presented a truly gay and joyous aspect. The illumination, too, was very grand, and the effect is described as perfectly enchanting, the whole town being literally a blaze of light, with a plenitude of transparencies, bearing mottoes suitable to the occasion. The amount of \$1,081.75 was at the disposal of the Committee; and a balance in hand of \$152.13 was disposed of thus—Donation to Hospital, \$50; donation to Fire Brigade, \$50; purchase of Dominion flag \$52.13.

The patriotic outburst of the 1st seems to have exerted a cooling influence on the 4th, as it does not appear that the American residents attempted any formal celebration, as in former years. There were, however, amusements, including horse-races &c. and the day passed off very pleasantly. The mining news covering the week of celebrations is, as might have been expected, meagre. The Forest Rose washed 170 oz. The hydraulic companies on William Creek continued hard at work, piling right and day and, as the water was holding out well, it is expected that there would be twice as much ground stripped as in any previous season. The iron pipes of the Flum Co. were doing great execution, and a commencement had been made to clean up some of the ground. The Discovery and Valley Mountain companies continued to do well. On Harvey Creek the Montrose were getting good pay. On Lightning, the South Wales (for half week) took out 85 oz.

The fire-alarm bell (263 lbs.) had arrived from San Francisco, and would be at once placed in position. A cave in the Brouse cos. claim came near doing fatal mischief. It caught Mr. William Stephenson, one of the owners, and a Chinaman, both of whom were severely bruised. The first ox-teams of the season reached Barkerville on the 5th. The arrival on William Creek of A. R. Robertson, Esq. Mayor of this city, is noticed by the *Sentinel* in kindly and complimentary terms. The McGieley Troupe continue to amuse the people of Cariboo.

EQUIMALT LICENSES.—A short time ago we took occasion to point out the unfairness of requiring the keepers of public houses at Equimalt to pay city license rates. We are gratified to learn that the views we presented have been adopted by the authorities, and that only country rates will hereafter be demanded for Equimalt licenses. This is a simple act of justice to the people of Equimalt, and we must compliment the authorities upon the promptitude with which that act has been performed.

SALE AT GOVERNMENT HOUSE.—At 11 o'clock this morning Mr. Franklin will commence the sale of horses, carriages, harnesses, saddles, fowling pieces, sewing machine, dinner service, choice wines, &c. &c. Buses will leave the Adelphi corner at 10½ o'clock. The sale is peremptory and, no doubt, great bargains will be secured.

The U. S. R. C. LINCOLN arrived in the harbor yesterday morning.

A "Scrap" of Local Political History

The Standard-bearer is again playing sad havoc with the Queen's English and Truth. In his political wind-sheet yesterday, he says: "Just imagine Master Higgins, fresh from his tour to Ottawa, sending instructions to support an Annexationist on one side, and a Confederationist on the other! and both in some constituency." It is quite true a telegram to support Messrs. Helmcken and DeCosmos was sent by Mr. Higgins; but had he then known, as he learned afterwards, that DeCosmos had shouted "To hell with Confederation!" and espoused Annexation, no such telegram would have been sent. As our friend is fond of referring to the contest of 1868, when Dr. Helmcken polled nearly two votes to his own, a few "scraps" connected therewith may not prove uninteresting at the present time. During that memorable contest, Amor corralled a number of Greek fishermen at the Alhambra and, mistaking them for Italians, spoke a short piece to them, as follows: "Gentlemen, trust in The DeCosmo! He will be your Garibaldi! The Greeks pondered and pondered over the impressive remarks of the piously-inclined gentleman who had given them food for thought and then ungratefully went the next day and voted against him! They seemed to think his politics like their commodity, somewhat fishy. On the same evening, at the Alhambra, arose a valiant Knight of the Shere who interrupted the gentleman in the midst of a torrent of eloquence and things, and said, 'But you've told us all that before, and now you're just gone and voted differently.' "Sir," replied the eloquent gentleman, "you don't know what you are talking about. The DeCosmo never alters. God Almighty may alter, but The DeCosmo never!" The gallant Knight was overcome with emotion and conviction, and he, too, went the next day and voted against him. When the votes were counted, it was found that Dr. Helmcken had received nearly two votes to The DeCosmo's one. Shortly afterwards a vacancy occurred in District No. 2, to fill which he was elected. A few weeks subsequently at the Theatre he made a speech in which he said, "By an inscrutable decree of Providence I am again a member of the Assembly, notwithstanding the opposition of Dr. Helmcken, &c." etc. The previous member having died, the impression sought to be conveyed was that his career had been cut short to give the DeCosmo his seat—a local application of Mormon principles as practically illustrated by the Danites or Destroying Angels of Brigham Young! Is it to be wondered at that the man who could utter such impious trash in the presence of an intelligent audience should favor the Paris Communists and clap his hands for joy when he heard of the tragic end of Archbishop Darboy? In his article yesterday the Communist says The Colonist advocated Annexation. To this we reply that the nearest it ever came to advocating such an absurdity was when it supported his Love-lyself for the Legislature. But that was when the present proprietor was absent from the Colony. The charge, too, that The Colonist applied through Governor Musgrave to Sir John A. Macdonald for a subsidy to assist in ousting The Colonist is palpably untrue, because The Colonist died in July, 1869, and Governor Musgrave did not reach the Colony until about a month subsequently. It is also untrue that a subsidy was ever asked from the Canadian or any other Government at any time to support The Colonist, which is able to support itself under any and all circumstances, and will live long after the ephemeral Standard has been applied to the purpose for which it was designed, viz:—A political wind-sheet for its ostensible proprietor. It is quite true, however, that The DeCosmo announced to several parties still in Victoria that he would have the distribution of the Dominion patronage on the Pacific coast, and asked them which position they would prefer! We are also told that he still clings to the insane belief that he will be the first Premier and that so late as the 7th of January last, in selling for \$1500 one-half of the dying establishment that had cost him from first to last \$8000, he also sold the Queen's Printer's of the province of British Columbia! After the idea of November it will probably be found that the Queen's Printer's was not the only thing that was sold with the plant. It concluding his article he challenges us to produce the article in which he referred to Canadians as North American Chinamen. Nothing can be easier. In his leader of 6th March last the Canadians are repeatedly spoken of as Chinese, The Colonist as the organ of the Chinese (meaning the afore-said Canadians), and Canada as effete, worn-out, decrepit, "Granddaddy Canada." But his denial will not surprise anyone, when it is remembered that, after having applied the insulting term "carpetbagger" to the surveyors almost as soon as they landed from the steamer and sought to create a prejudice against them in the public mind by saying that they owed their appointment to political influence and not to merit, he, the very next day, denied having applied any such term or made any such charge. A controversy with such an adversary as The DeCosmo is worse than unprofitable—it is degrading. And yet it is sometimes necessary to touch pitch even though it defile!

LUDICROUS ERROR.—A local contemporary says, "If any farmer votes for a member of the local Legislature or a representative to Ottawa who is favorable to the immediate imposition of the Canadian tariff, he ought to be held up to public scorn and ridicule." Now we should imagine that the proposition reversed would be correct, inasmuch as the farmer voting for the retention of the present tariff would be voting for the continuation of an enormous tax upon his meat and drink, to be paid into the Federal Treasury.

PUGET SOUND ITEMS FROM THE INTELLIGENCER.—Seven hundred Chinese, 250 whites and over 1000 teams are employed in grading for the railroad between Olympia and Kalama. The ship, Wildwood is being prepared for the season. Millo-Jen's circus will exhibit on the Sound this week and will arrive at Victoria on Monday next. The bark Architect is loading with coal at San Francisco. J. T. Jordan was elected Mayor of Seattle.

TRouble IN THE CAMP.—It is again reported that the Communists have become convinced that their man DeCosmos can't win in this district for the Commons and are urging him to stand for the outside or Vancouver District; hence he has obtained copies of the voters' list in that district with the object of coming the gammon over the electors at an early date.

UNION DAY.—We are happy to learn that the committee for the celebration of the 20th are exerting themselves to make the occasion worthy of the event. They have deferred announcing a programme in the hope Her Majesty's Flagship Zealous may arrive in time. In any case particulars will be published to-morrow.

The Douglas starts for Nainaimo at 7 this morning and will return to-morrow.

MORLEY PUNSHON'S OPINION OF BRITISH COLUMBIA.

REV Mr Punshon has written his opinion of British Columbia to the editor of a Cornish paper as follows:—"He describes the people as thoroughly British in their sympathies and in favor of Canadian Confederation. Of the 220,000 square miles, the area of British Columbia, he says, perhaps 100,000 may be put down as mountain, utterly unfit for the plough and incapable of cultivation. But there is still left a large area of tillable land on which agriculture may become a source of vast wealth. The climate is moist, strongly resembling that of England, but perhaps warmer in the winter. The mornings and evenings are cool no matter how warm the day has been. It may be too cool for the weak and sedentary, but men of vigorous constitution and active habits enjoy the climate thoroughly. The great want is population. There is room for millions, but the white population does not exceed 15,000. There are 4000 or 5000 in and about Victoria, 400 or 500 in Nainaimo, the same at New Westminster, perhaps 2000 in the mining districts, and the remainder are scattered over the farming districts. There are more than 2000 Chinamen; many are in the mines working abandoned claims and others are earning a livelihood by raising vegetables for market on patches of ground where a European would starve. A goodly number are employed as domestics; the ladies say that they make capital servants. The Indian population is supposed to range from 40,000 to 60,000, in a state of the most debasing Paganism and with little sense of decency. Mr Punshon declares British Columbia a fine mission field for all the Churches."

FROM THE SOUND.—The steamer North Pacific arrived from Olympia and way ports at 9 last evening, bringing 60 passengers and a good freight. We are indebted to Purser Taylor and Wells-Fargo's messenger, Mr. Crosby, for the customary favors. The North Pacific will sail at 10½ this morning.

SCARCITY OF FISH.—All kinds of fish are unaccountably scarce this year. On the Fraser the "run" is three weeks behind the customary time and much anxiety is felt in consequence. Fishermen say the funny tribes were never, within their recollection, so poorly represented in the harbor and adjacent waters as this year.

ITEMS IN BRIEF.—The Enterprise on Sunday arrived from New Westminster via Burrard Inlet, bringing 20 passengers. The steamer Isabella, from Nainaimo arrived on Sunday. The bark Robert Jones has been towed to Esquimalt, there to discharge Government stores. The California sailed for Portland on Sunday morning.

ASSAULT.—Frank O'Neill was yesterday brought before the Police Magistrate on a charge of having struck August Campbell with his fist, and also kicking him. The accused pleaded guilty and was remanded until Friday next for sentence.

A BAD CHARACTER.—At Virginia City, Nevada, a man named George Kirk, having been warned to leave by the Vigilance Committee, returned on the 14th inst., and was hanged by the Committee. Kirk formerly lived in this city.

THE EMBEZZLEMENT CASE.—San Keun and Chang Foon, the Chinese lady and gentleman, were brought before the Police Court and remanded for one week on a charge of embezzling from Kwong, Lee & Co.

DESIRABLE INVESTMENT.—This morning Mr. Heisterman offers a bargain to an enterprising man of business habits. The locality is good and the price asked reasonable.

An Indian woman was killed by her husband a few days ago at Yale. She was beaten upon the head and her skull fractured.

The Lands and Works require all accounts due by that Department sent in on or before the 19th inst., as the public accounts will then be closed.

SHIPPING IS SCARCE and rates of freight high. We are told that colonial mills have large orders which they are prevented from filling, being unable to procure vessels.

TENDERS for supplying the bar and refreshment tables at the Mechanics' Institute Picnic will be received by Mr. A. McLean up to 4 o'clock p.m. to-day.

NO NEWS OF THE ZEALOUS. If she don't arrive before the 20th there will be a good many disappointed.

COLLEGIATE SCHOOL.—The examination continued yesterday. On Wednesday at 2 o'clock the prizes will be distributed.

CHIGNONS have gone out of fashion at the East.

THOUSANDS OF ROSY LIPS

Attest the many virtues of the genuine Murray and Lanman's Florida Water. Matchless as a perfume, it is equally matchless as a cosmetic, allaying the irritation of the skin, relieving headache, preventing faintness, and, when diluted the best of tooth washes. Truly it is the most valuable, all floral waters.

There are some worthless counterfeits abroad. Always ask for the Florida Water prepared by the sole proprietors, Lanman & Kemp, New York.

SCOTCH HOUSE.—A. McLean & Co., as just opening a splendid assortment of Ladies', Gentlemen's and Children's Boots made expressly to their order, which they offer at a small advance on English cost.

The great engineering work of deepening the Illinois-Michigan canal so that the waters of Lake Michigan may flow through Chicago river into the canal and thence into Illinois river and finally to the Gulf of Mexico, was completed yesterday, and the dam on the summit of the highest point has been removed. The water rushed through with great force and to-day the horrible stench of Chicago river noted as the most terrible in the world has disappeared and the blue waters of the lake have replaced its ugly current.

NEW YORK. July 16—The funeral of sergeant Wyatt and private Page of the 98th regiment, killed in the riot, took place to-day. They were buried in Woodlawn cemetery. Chaplain Fieg of the 9th regiment performed the funeral service in Calvary Church. The remains were followed to the grave by the 9th, 12th, 71st and representatives of other regiments. A number of citizens stood in the streets in the dreaching rain and storm to witness the procession.

WASHINGTON. July 16—The umpire of the Mexican Claims Commission has decided that the Mexican Government is responsible for the property of American citizens destroyed during the French invasion, and also that Americans doing business in Mexico are entitled to the indemnity, not being Mexican citizens. The Commissioners have decided that the Miramon and Solana Governments in Mexico during 1858-59 were not lawful governments, and also that the American Government is not responsible for depredations committed by Confederate troops or Mexican citizens. The Commission has allowed an important claim founded on a contract with the Mexican Republic. It is supposed that it will allow all valid claims for military and other supplies furnished by our citizens to Mexico during the French invasion. The great question has yet to be decided as to the jurisdiction of claims founded on bonds issued by Mexico and held by American citizens. This question has not been passed upon by the Commission or umpire.

NEW YORK. July 15—Some of the rioters have been discharged from custody and others released on bail ranging from \$500 to \$2000. Two more deaths have occurred to-day—those of W G McGrath and H Lattimer, the latter a well-known merchant of Brooklyn. Several more deaths are hourly expected—six of the patients in the Bellevue Hospital being beyond all hope of recovery. Among these is Walter Prior, son of the popular actress Mrs J J Prior.

The bodies of Page and Wyatt of the 9th regiment will rest in the same grave and one monument over them will tell of their death in behalf of law and liberty. The 9th and 13th regiments and 600 policemen under Inspector Dilke will unite in the procession.

SAN FRANCISCO. July 15—A committee of two ministers each from the Baptist, Methodist and Presbyterian Churches of San Francisco published a card denouncing the late Papal celebration here as a needless desecration of the Sabbath, and an imposition upon peaceable citizens who desire Sunday as a day of rest. They close as follows:—Resolved, That the attempt thus made of introducing here the effete pageants of popery and the homage thus improperly offered to a dethroned foreign monarch, indicate a divided allegiance and a spurious patriotism.

Resolved, That those of our Roman Catholic fellow citizens who refused to take part in the demonstration lest they might seem to share in this offensive desecration of the Lord's day, are deserving of praise and entitled to the thanks of all good citizens.
